RE: SUPPORT FOR BILL 84 CD1 - NORTH SHORE ZONE CHANGE REQUEST
DEPARTMENT OF DESIGN AND CONSTRUCTION (Obayashi Pupukea Paumalu Parcel)

10:00 a.m., Wednesday, March 14, 2007

Honorable Council members:

The North Shore Community Land Trust (NSCLT) is grateful for the community's continued support for the protection of Pupukea Paumalu. There truly has been a united effort across this region to find the best way to protect the public's interest in this resource. Today, we are reaching the final stages of this once in a life-time conservation transaction. We express our strong support for the rezoning of the property by the County and the landowner that will facilitate the purchase of the property by the Trust for Public Land (TPL) for the benefit of the public.

The North Shore community tapped into world-wide support and over 20 years of community work to help raise the funding for the conservation purchase. We are hopeful that one day soon the activities envisioned by the community such as use by Sunset Beach Elementary School and the adjacent Scout camps, walking, hiking, biking, horseback riding, nature education, and community gardening will be integrated into the conservation of the property.

We also appreciate the support from the administrations of Governor Lingle and Mayor Hannemann as well as from the City Council, our representatives in the State Legislature, not to mention our entire Congressional delegation. The unprecedented support the project benefits from clearly demonstrates what the North Shore can accomplish when we organize around shared values and bring people together in cooperative efforts. We are especially indebted to the landowner, Obayashi Corporation, for their cooperation and vision.

As you know, we are truly grateful that the City Council has provided its full support for the conservation of this property. Please see the attached list of additional supporters and letters of support from our local community association and Neighborhood Board. Thank you again.

For additional information, please feel free to contact me at 808.638.0338.

Sincerely,

Blake McElheny, Chair

RE: SBCA Support of the City and County of Honolulu's request to change the zoning (down-zone) of the "Pupukea Paumalu" project site in order to facilitate the long-term conservation of the land

I am writing on behalf of the Sunset Beach Community Association (SBCA) to inform you that the SBCA has consistently supported the effort to protect Pupukea Paumalu and therefore we support all steps that facilitate the transaction such as the down-zoning for the property that will allow the property to be permanently protected by the Trust for Public Land (TPL) and its partners. Even though the community has consistently been updated on this exciting project, the SBCA has particularly appreciated recent presentations and explanations as we have learned about the final stages of the conservation transaction and how all the various agencies and the landowner are working together in order to make the permanent preservation of this special piece of property possible.

Also, as you know, the North Shore community tapped into world-wide support and over 15 years of community work to help raise the funding for the conservation purchase. To date, funding has been committed by NOAA, the U.S. Army Garrison Hawai'i, the State of Hawai'i, the DLNR, private donors and the City and County of Honolulu.

This community is certainly grateful for the City's continued support for the protection of Pupukea Paumalu. There truly has been a united effort from the halls of congress to the meeting rooms of community associations across this region to find the best way to protect the public's interest in this resource. As you can imagine, we are eagerly awaiting favorable consideration of the rezoning by the Planning Commission and the City Council.

This community is humbled by the support from the administrations of Governor Lingle and Mayor Hanneman as well as from Council Chair Dela Cruz, Senate President Bunda, and Representative Michael Magaoay, not to mention our entire Congressional delegation. This project demonstrates what the North Shore can accomplish with the government when we organize around shared values and bring people together in cooperative efforts. In this day and age it is special to see a project that has such universal support and that benefits so many diverse stakeholders.

If you have any questions please feel free to contact me at 497-0036. Thank you again for your support.

Sincerely,

Doug Cole, President-Sunset Beach Community Association

NORTH SHORE NEIGHBORHOOD BOARD NO. 27

RE: Neighborhood Board Support of the City and County of Honolulu's request to change the zoning (down-zone) of the parcels of the "Pupukea Paumalu" project site in order to facilitate the long-term conservation of the land

I am writing on behalf of the North Shore Neighborhood Board (NSNB) to inform you that on June 27, 2006 the NSNB voted unanimously to support the down-zoning for the "Pupukea Paumalu" property that will allow the property to be permanently protected by the Trust for Public Land (TPL) and its partners. Even though the community has consistently been updated on this exciting project, the NSNB particularly appreciated the presentation made by TPL and the City's Department of Design and Construction (DDC) as the presentation explained the final stages of the conservation transaction and how all the various agencies and the landowner are working together in order to make the permanent preservation of this special piece of property possible. Members of the NSNB also discussed how important it is to be vigilant to ensure that the transaction is finalized and that the protection and preservation is completely permanent.

This community is certainly grateful for the City's continued support for the protection of Pupukea Paumalu. There truly has been a united effort from the halls of congress to the meeting rooms of community associations across this region to find the best way to protect the public's interest in this resource.

As you know, the North Shore community tapped into world-wide support and over 15 years of community work to help raise the funding for the conservation purchase. To date, funding has been committed by NOAA, the U.S. Army Garrison Hawai'i, the State of Hawai'i, the DLNR, private donors and the City and County of Honolulu.

This community is humbled by the support from the administrations of Governor Lingle and Mayor Hanneman as well as from Council Chair Dela Cruz, Senate President Bunda, and Representative Michael Magaoay, not to mention our entire Congressional delegation. This project demonstrates what the North Shore can accomplish when we organize around shared values and bring people together in cooperative efforts. In this day and age it is special to see a project that has such universal support and that benefits so many diverse stakeholders.
